The restriction requirement of the previous office action is modified, as requested by applicant in Paper No. 5, with the first group comprising claims 1-5; 7-12 and the second group comprising claim 6.

In a brief conversation on 11/30/02, I indicated to Mr. Noll that I had difficulty in understanding the invention, and that a drawing figure showing the invention in perspective would be very helpful. A photograph, a commercial pamphlet or even an informal sketch of the invention would be also helpful.

In order to expedite prosecution, Mr. Noll indicated that in response to this action, he will consider identifying each and every element of all the claims will reference to the drawings, with numerals in parentheses. Such numerals will aid in more easily "following" the claims and will help in avoiding "mistakes" but will not in any way limit the scopes of the claims.

Upon a better understanding of the invention, the restriction requirement will be withdrawn, or made final.
